Dear Larry,

I just wanted to let you know how much we love our new All in One displays. I've received numerous compliments on them. I am looking forward to updating them for the first time to see if people notice the change right away.

I printed the names and photos on white paper and I really like the sharp look of the black, white and red together. In the center section I cut out our logo and have a picture that isn't a whole sheet size so the black background shows through. I found this really sets off our Strong Kids logo and is visually a nice break from all the printed sheets. It is a nice contrast that draws your eyes to the plaque.

Thank you again for an excellent product and a great way to keep our annual giving display up to date. I have been looking for something like this for years. I think you really hit on something great this time.

Feel free to provide my contact information to anyone who would like to visit with me regarding this display.

Enjoy the rest of your summer!

Sincerely,

A handwritten signature in black ink that reads 'Linda DeWitt'. The signature is written in a cursive style.
