March 2013

I have been fortunate to use the services and products of Recognition Art for nearly eighteen years through three YMCA associations – Saint Louis, Houston and Central Kentucky. The quality of the materials and staff relationship is always top notch. I value Larry Greenwald's understanding of and commitment to charitable organizations. He knows the importance of recognition to donors, and he works with clients to craft something cost sensitive yet visually beautiful. I appreciate his personal touch from concept to installation.

All my best,
