To Whom It May Concern:

RE: Recognition Art

The Guadalupe Center worked with Recognition Art for the design and creation of our donor recognition wall. Throughout the process the staff was responsive to the numerous changes and modifications that were requested. The project was completed within the timeframe that had been established and stayed within the budget that had been established.

The end result was a truly amazing product which receives compliments and comments from everyone who enters our facility. It is whimsical and child focused which is exactly what was needed in the lobby of a preschool education center. The design also enables the staff to update giving levels on a regular basis using in house materials.

I would recommend Recognition Art without hesitation. It was truly a wonderful experience working with Larry and his colleagues.

Sincerely,

Barbara J. Oppenheim  
Executive Director
