

To Whom It May Concern:

The Huron Regional Medical Center Foundation worked with Larry and the team at RecognitionArt over the past year to develop a new, state-of-the-art donor recognition wall for our medical facility. During that time, Larry provided responsive, high-quality service.

This process went extremely smooth because of the professional, knowledgeable, and customer-oriented service that Larry provided. Since this was the first time in more than 20 years that our facility looked for a new donor recognition wall, the process took longer than originally planned. Larry was extremely understanding of our longer process and continued to provide outstanding council to help us get a high-quality product.

I would highly recommend Larry and the team at RecognitionArt. From the design concepts to final delivery, they provided professional, honest, and customer-oriented service.

The wall looks AMAZING! We have gotten so many compliments already that I can't believe it!

Sincerely,

A handwritten signature in black ink, appearing to read "Paul Rann". The signature is fluid and cursive, with a large, sweeping flourish at the end.

Paul Rann
