Mr. Larry Greenwald
Recognition Art

Dear Larry,

What a year it has been for the Mexico Area Family YMCA! We opened our new, expanded and renovated facility at the end of May. Our community has been in awe of our addition and we have gained many new memberships. One of the things that I am so proud to show off is the two donor recognition pieces that your company designed and built for us. They are truly unique and beautiful!

The Heritage Club piece and the capital campaign donor recognition piece are proudly displayed in the new addition. Thank you for working with us to fit both into our budget. Your staff has been terrific to work with, and any qualms I might have had about working with a company long distance quickly dissipated. The designer kept us in the loop during the process and was sensitive to our branding rules. Your staff also meticulously packed and shipped our pieces with such care! I know we will continue our relationship, as we chose recognition pieces which will allow us to update our Heritage Club members each year.

Please use us as a reference for your future clients. Thanks again for helping amateurs figure out how to best thank our donors in a way that was economical, yet artistic and beautiful!

Sincerely,

Sherry A. Medley
Executive Director
