Recognition Art
4545-H Mariotti Court
Sarasota, FL 34233

Dear Larry,

As our capital campaign comes to a close and the final donor recognition is installed, I am so pleased that we selected Recognition Art to represent us in this endeavor.

This was an historic fundraising campaign for the Medical Center as it was its largest ever in its 128-year history. We very much appreciate the time you took to visit and to learn about our Medical Center, its history and its mission in preparation for providing us design choices.

We are thrilled with the finished product! Our illuminated main campaign wall which incorporates our Provena Dove serves not only as a beautiful recognition of our donors but also as a primary work of art for our visitors to view as they enter our new patient tower. We receive many compliments on this piece as well as our employee recognition in the Winter Garden. Each receives periodic stops from our internal and external constituents and gives others the opportunity to ponder the generosity of so many and perhaps inspire their own giving.

Our patient room recognition also provides a consistent look and permanent appreciation for those who supported this campaign at key levels – something which had been missing from previous campaigns. It is a joy to share these areas with our donors.

On behalf of our administration, donors, Sisters and internal and external constituents, thank you for working with us to design and install such fitting and lasting recognition. If we can ever serve as a reference, please let us know.

Most sincerely,

A handwritten signature in blue ink that reads "Beth Garton".
