"We received the RecognitionArt Donor Wall just in time for our annual donor luncheon at our chapter offices, and it was a great success. When a donor is able to see their name prominently displayed and properly recognized, it gives them a sense of pride as well as ownership in our organization.

At the American Red Cross of Greater Los Angeles, we value every single one of our donors, and we want them to feel our gratitude, as well as support our mission and services.

Thank you to Larry Greenwald and RecognitionArt for their high level of professionalism, and for delivering a product that fulfilled our needs. They understand that every nonprofit has a high level of commitment towards honoring their donor intent, and they share that same commitment for donor recognition. I believe every nonprofit should consider displaying a donor wall at the front of their offices, and RecognitionArt can help to achieve that."

Greg Cherry
Associate Director of Major Gifts
American Red Cross of Greater Los Angeles
