To Whom It May Concern:

I worked with Larry at Recognition Art in the fall of 2007, on a display for recognition of our donors. Larry had sent a couple of designs to us for review and after discussing our thoughts with him, he came up with an original design. What we like about this design is that it is a 30" square, six foot tall, free-standing, rotating display that does not take a lot of floor space.

Larry and his team at Recognition Art were very easy to work with and accommodating to our requests. We had one minor problem, when the display arrived by truck, the trucking company had not tied it down properly and it had fallen to one side cracking some of the wood molding. Larry immediately called the trucking company to have it shipped back. After discussing our options, we decided not to ship it back, and Larry asked us the name of a cabinet maker in our area. He contacted the cabinet maker and made sure that everything was perfect.

We now proudly display our recognition system in our new vestibule. As people enter and leave our facility it is a constant reminder to them of the generous donors that have made our facility what it is today.

I would recommend Recognition Art, they were professional, knowledgeable, and very customer oriented. Whenever I have called or emailed them to update our display board they have given me the same great customer service they did when we bought our original display

Sincerely,

Patricia K. Prill,
Community Relations Coordinator
