

**I have been a customer of Larry Greenwald's for the past two years. I will be continuing my association with Larry and his staff in the new venture RecognitionArt.**

**As the Director of Development for a skilled nursing care facility in Groton, CT, I have had a terrific experience with Larry and his employees although I was reluctant at first to purchase the unique type of recognition wall that was suggested by his professionals, especially from a company so far away from Connecticut.**

**However, I couldn't be happier with the quality of the product and the service I have received. They have fulfilled all of our requests and have provided superior follow-up with ongoing additions to our donor wall. I would recommend Recognition Art to anyone interested in a first-rate, service oriented donor recognition company.**
