To Whom It May Concern:

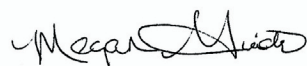

Pullman Regional Hospital has worked with Larry for the last two years. During that time, he provided responsive service, quality products and innovative designs and presentations at a reasonable cost.

Larry has designed and produced our capital campaign Circle of Friends donor wall and room plaques. Most recently, he designed and produced our medical staff directory. We experienced no issues with shipping or service as a West coast customer.

With many choices in the market place for donor recognition and displays, I recommend Larry and his associates for this important work vital to donor relations.

I can be contacted at 509.336.7390.

Sincerely,

Megan Guido  
Director of Community Relations & Foundation
